

Home Health Aide Opportunity for Nursing Students

BAYADA Home Health Care - Main Line office has an opportunity for Student Nurses to work as home health aides (HHA). We have an active 64 year old client with anxiety issues who receives services M-Th. This particular client does not have any hands-on care provided but is very anxious and utilizes our services to stay active in the community. Completion of a med-surg rotation is required and completion of a psych rotation is beneficial.

The hours are: Mon, 8-5 and Wed & Thurs, 8-12. We are looking for a pool of students who can commit to at least one day per week.

If this particular case does not appeal to you, but you would like to develop your skills, we have other HHA opportunities. We provide services 24 hours a day, 7 days a week throughout the Main Line area.

Our flexible scheduling means we can work with and around your school schedule.
