Some members of the Class of 2013 live overseas in Ecuador, South Africa, and Korea, while others serve with international missions organizations in multiple countries.

55% of our 2013 graduates received career counseling from Eastern University Talent and Career Development during their years at Eastern.

## FAITH / REASON / JUSTICE: QUOTES FROM THE CLASS OF 2013

"I am currently participating in the Young Adult Volunteer (YAV) program serving the Presbyterian Church (USA) in New Orleans, Louisiana for the year...I love it!"

***"Working full-time in a position that combines everything I wanted in a job - traveling, writing, PR, social media and excellent co-workers. My internships, which I found through Eastern's job posting website, helped me to secure my current post-grad position."***

"I moved to Kirksville, MO, in December for a television news reporting job at KTVO-TV...This is just the beginning of my career and I cannot wait to see what the Lord has in store for the future."

***"The internship I had in college as an intern for an inner city kids summer camp turned into a full time position with that organization. I manage the volunteers for weekly ministries such as food and clothing distribution, after school programs and youth Bible studies...at this point in my life, this is my dream job!"***

“I am coaching Division 1 baseball and it is going great. We travel a lot so I am getting to see some places that I would never see if I did not have this job. I look to continue coaching and make a career out of it!”

***“Currently, I’m working as an Investment Professional at Vanguard, an international investment management company. Thus far, the experience has been great.”***

“I currently work at Bryn Mawr Hospital as a nurse resident. It has been a wonderful experience so far. Having had the externship my senior year at Eastern definitely helped me secure a job upon graduation.”

***“I’m currently getting my Masters’ degree at Temple University, and it is going very well. [EU Talent and Career Development] was so helpful in guiding me to where I wanted to be.”***

“I am in a challenging and rewarding job working with youth with mental health diagnoses to help them be more independent. I couldn’t ask for a better first job out of college.”

***“I am a missionary resident supervisor at Alaska Christian College. It is best described as a hybrid between an RA and an RD. The mission of the college is the reach out to Alaskan Natives, and almost every student who attends ACC is native. I have fallen in love with the people and their culture, and they have welcomed me into their family with open arms.”***

“I love the charter school I am working at and plan to apply to a full-time teaching fellowship position for this upcoming year. I learned a lot while student teaching and am continuing to learn a lot in the position I am in regarding classroom management, conflict resolution, and overall organizational skills. I am very supported by the fellow staff and it is a positive, upbeat environment.”

***“I’m working part-time as a Therapeutic Staff Support with children with autism while I pursue my Master’s in clinical-counseling psychology. I love my job and the program I’m in.”***

“I am finishing my first year in Arcadia’s Physician Assistant program. It is challenging, yet I feel very well prepared from my education at EU and I am ready to begin my rotational year starting this summer.”

***“I have a solid job on Wall Street with Carl Fischer doing what I love. Eastern gave me a solid foundation to achieve this and I’m very grateful for all the experience I was able to glean from the Music Department and Eastern as a whole.”***
