CCGPS	Kenneth L. Pike (language, linguistics, anthropology) Robert Frost (literature)	This is not related to the library whatsoever, but I wish more adjunct faculty (and thus, online students) were aware of the fantastic array of resources and services offered by your staff.	More appreciation for the wonderful work that you all do! Thanks for your technical expertise, your amazing service to faculty and students, and your constant search for ways to improve. The library is one of Eastern's best resources.
Templeton	Kenneth L. Pike (language, linguistics, anthropology) Robert Frost (literature)	Do you have a newsletter or an email that could be sent to our students to "advertise" the Library services every few months? To allow them to see what the Library has to offer and how easy it is to find and use the material.	More study spaces for small groups; Longer hours (by student request)

Continue to move forward with education in electronic capabilities. I have loved the access to the Library that is available for our Online students. 2. The Lib Guides are great for our students with information and availability. Keep it up.

CAS	I'm not sure if we have it yet, but a subscription to the Journal of the Experimental Analysis of Behavior and The Journal of Applied Behavior Analysis would be great. Our students use both in two of our classes and, while most articles are available online, the more recent articles are not. Is there a way to get a subscription for "current year" articles only?	As mentioned, I'm please with the service I've received. Library staff have actually gone above and beyond what I would have expected (ordering videos for classes, etc).	(1) Above (2-3) I'll give these other two wishes to others, as I am pleased with the service I've received from the library.
CAS		library staff is wonderful; can't think of anything new	funds to do more special programming for the students (you always do a good job, wish you had a bit more budget to expand what you do)

CAS		In the future, I would love to have my writing class come to the library for a lecture from the library team about how to research in Spanish. Also, they are terrible at MLA citations - could the library help with that???	I wish I had asked a library to walk my students through the resources that are offered for the Spanish Department. I am sure there are so very many that are apart from EBSCO Host but I never made the appointment to find out.
CCGPS	Academic writing for adults Making literature accessible	This is a tricky question. Honestly, I haven't thought about how to integrate the library with my course more, but if there were resources on how to do that, I'd be happy to read it and think about it. The library IS a great resource, and encouraging students to use it makes good sense.	<ul style="list-style-type: none"> *Financial support so the library can grow as it needs *Administrative support *Opportunities for the staff to develop and flourish
