Student Planning

Eastern University
A WebAdvisor Walkthrough
Introduction

This powerpoint will guide you through Eastern’s new student information database, WebAdvisor, focusing on Academic Planning.

To begin, log onto WebAdvisor with your Eastern ID and password.
Once you are logged in, select Student Planning indicated below.
From here, you can view the progress you have made in your major, you can plan and schedule future classes, and you can view Eastern’s course catalog, academic placement tests, and your unofficial transcript. First, select the highlighted My Progress option.
This menu gives you a layout of all the classes you may want to take to fulfil your General Education requirements and your major’s requirements. Also, you can select View a New Program to browse through other majors and their specific required courses.
Under the Plan and Schedule Menu, you can view the courses you are currently taking. You can also add or drop courses, register for new courses, view your timeline for the upcoming semesters, and view comments from your Academic Advisor.
You can view all of the courses that Eastern offers by selecting Course Catalog.
The test summary menu will display the results of all of the academic placement tests that you may have taken.
Finally, the Unofficial Transcript tab will give you access to your total credits earned thus far and your GPA, along with the courses in which you have earned these credits. By selecting Undergraduate Level Transcript, a PDF file containing this information will be downloaded.
Thanks!

- If you have any further questions, please contact the Registrar’s Office
  - registrar@eastern.edu
  - 610-341-5853

- Meet with your advisor regularly to discuss course planning specific to you.
