MISSION STATEMENT

MISSION

Eastern University is a Christian university dedicated to the preparation of undergraduate, theological and graduate students for thoughtful and productive lives of Christian faith, leadership and service. The mission is confirmed and celebrated when graduates believe their way into knowledgeable action that influences their world in substantive ways.

VISION

Eastern University is dedicated to ideas, inquiry, and the development of people of faith who will enhance the quality of society and the church. Toward that end, Eastern will continue to expand its formative role in the world as a university in which knowledge and wisdom are imbued, Christlike engagement is inspired, and stewardship is modeled.

THE GOALS OF THE UNIVERSITY

Eastern University is dedicated to the following foundational commitments:

To excellence in scholarship and teaching:

We maintain a high priority on excellence in teaching within the context of exemplary scholarship and research. Guided by our faith in Jesus Christ, who is “the way, the truth, and the life” (John 14:6), we believe in the unity of God’s truth, whether supernaturally revealed or humanly discovered; we value the search for knowledge and understanding in all areas of life. Thus we desire to foster an environment in which:

- Students develop intellectual curiosity, passion, and agility, valuing the life of the mind and life-long learning;
- Students develop their critical thinking, reflection, analysis, and communication skills;
- Students develop knowledge and competencies in the arts, sciences, and professions;
- Faculty are supported in and recognized for scholarship of discovery, integration, application, and teaching.

To the whole gospel for the whole world through whole persons:

We recognize the Bible, composed of the Old and New Testaments, as inspired of God and as the supreme and final authority in faith and life. We submit ourselves to carrying out our mission under its authority and seek to apply biblical principles to all facets of human aspiration and action, including the centrality of personal transformation. We affirm the importance of calling all persons everywhere to personal faith and faithful discipleship in following Jesus Christ as Savior and Lord, including living out the whole gospel in a needy and lost world. Thus we seek:

- To enable students to develop a Christian worldview, grounded in the Scriptures;
- To enable students to discern the ethical consequences of decisions and actions;
- To foster an environment in which all members of the campus community desire and participate in their own Christian formation;
- To develop a campus community where all give witness to a Christian worldview, through action and voice, motivated to explore faithfulness to Christ through Christ-centered study, work, and living.

To justice, reconciliation, and transformation:

In our commitment to sharing the whole gospel to the whole world, we acknowledge with sorrow the brokenness of the world at personal, national, and international levels. Thus we seek to work for Christian transformation, justice, and reconciliation, in all areas of life as these are grounded in our understanding of Christ’s calling to us. We particularly seek to work with and for the poor, oppressed, and suffering persons as part of our Christian discipleship. Thus we seek:

- To provide educational opportunities and financial aid as best we can for those with few or no financial resources to attend a private Christian university;
- To motivate students to assume responsibility for justice and to show a transformative influence — especially regarding social, political, and economic justice;
- To enable all members of the campus community to participate in opportunities for meaningful service, demonstrating love for God and neighbors and working towards justice.

To responsible leadership and stewardship

We believe that our complex society needs leadership in all institutions that is intelligent, informed, insightful, ethical, strategic, and just. We are dedicated to graduating students whose wisdom, Christian values, and skills enable them to lead and manage such institutions, including those that are the most influential. Similarly, we commit to excellence in the leadership of Eastern and in the stewardship of University resources. Further, we believe that we are to care not only for people throughout the world, but also for creation itself a responsible stewards of the environment and other physical resources. Thus we seek:

- To prepare students to live in an interdependent world, aware of societal and global problems and committed to engage in solving them;
- To engender the wisdom and character necessary for sound Christian leadership;
- To inspire all members of the campus community to care for creation as responsible stewards and to model that care in the use of University facilities and resources.

To Christian community:

Our commitments lead us to work towards shaping a campus community that embodies values of Christian witness, caring and compassion, justice and integrity, competence and affirmation. We wish to treat each member of the campus community with fairness, dignity, and respect, seeking a spirit of unity and harmony as we join together to achieve our common mission. Thus we seek:

- To foster genuine community, where individuals show compassion and friendship towards others in the spirit of Christian love;
- To help students increase in self-awareness and in their sensitivity towards others and others’ needs and situations;
- To foster an environment where diversity is appreciated and reconciliation is practiced;
- To equip all members of the campus community to live well with one another, honoring, supporting, and affirming one another.

AN INTRODUCTION TO EASTERN

Eastern is a co-educational, comprehensive Christian university of the arts, sciences and professions which seeks to provide an education rooted in a unifying Christian worldview.

The University offers courses leading to seminary and doctoral degrees, as well as the graduate degrees of Master of Arts, Master of Business Administration, Master of Science and Master of Education. Undergraduate degrees granted are Associate of Applied Sciences, Associate of Arts, Bachelor of Arts, Bachelor of Science, Bachelor of Social Work and Bachelor of Science in Nursing.

HISTORY

Eastern University was founded in 1932 as a department of the Eastern Baptist Theological Seminary, which began in Philadelphia, PA, in 1925. This college division was organized for the purpose of supplementing the professional preparation of ministers. In 1938, the Department of Public Instruction of the Commonwealth of Pennsylvania approved the granting of the A.B. and the Th.B. degrees upon the completion of a six-year course of study. In 1948, a third year was added, making a seven-year course leading to the A.B. and B.D. degrees.

After almost twenty years of growth and progress, the Board of Trustees voted on April 17, 1951, to secure a charter and organize Eastern Baptist College as a separate institution. The Charles S. Walton estate was purchased for the college at St. Davids, PA. The purpose of the college was to prepare students not only for the ministry, but for all walks of life. The curriculum was enlarged, the faculty was strengthened, and a co-educational liberal arts college was opened.

Classes began in September, 1952, and the college received accreditation in 1954.

Early in 1972, the legal name of the school was changed to Eastern College: A Baptist Institution. The purpose of this change was to increase its appeal to all evangelical Christians, though the school retains its relationship to the American Baptist Churches in the USA. Eastern continued to grow in size and complexity, and was granted university status in December, 2001. Eastern University reunited with Eastern Baptist Theological Seminary in 2003. Honoring the legacy of its longest-serving President, Gordon Palmer, Eastern Baptist Theological Seminary was renamed Palmer Theological Seminary on July 1, 2005.

The Campolo College of Graduate and Professional Studies is comprised of iterations of college units established to offer undergraduate, graduate and professional studies to adult students. In 1989 the School of Professional Studies was established to offer degree completion programs to adult students. Eastern's first graduate program, the Master of Business Administration, was launched in January 1982. The Graduate Education Department was granted approval by the Pennsylvania Department of Education in spring 1992 to offer a Master of Education in two major areas: Multicultural Education and School Health Services. Associate's, master's and doctoral degree programs gained approval in the following decades.

Today, Eastern University comprises Palmer Theological Seminary, the College of Arts and Sciences, the Templeton Honors College, the Campolo College of Graduate and Profes-

sional Studies, and Esperanza College. Eastern University enrolls over 4,000 students in domestic and international undergraduate, graduate, professional, and theological programs in a variety of delivery formats.

PURPOSES AND SPECIFIC OBJECTIVES OF EASTERN UNIVERSITY

Trustees, administration, faculty, and staff have sought to shape Eastern University to reflect the following characteristics. These aspects are captured in the University's mission, goals, and vision statements, and have characterized Eastern throughout its rich history.

Academic and co-curricular programs at Eastern University are planned and carried out in the hope that all members of the University community will:

- Display knowledge of biblical teachings and their application to life situations;
- Seriously consider the claims of Jesus Christ as Savior and Lord;
- Develop a Christian worldview;

- Develop an appreciation of diversity among individuals and among cultures;
- Be prepared to live in an interdependent world, aware of global problems and dedicated to bringing God's justice and peace to all individuals and societies;

To these ends, the College of Graduate and Professional Studies has sought to:

Attract persons who are:

- Committed to the achievement of these outcomes,
- Capable of participating fully in the life of the University as a community of Christian learners;

Design an environment which fosters:

- Students' management of intellectual and psychological maturation processes in themselves and others,

DOCTRINAL STATEMENT

Section I

- We believe that the Bible, composed of Old and New Testaments, is inspired by God and serves as the rule of faith and practice, being the authoritative witness to the truth of God embodied in Jesus Christ.
- We believe in one God eternally existing as Three Persons.
 - We believe in God the Creator, author of all life and our salvation.
- We believe that God created human beings, male and female, in the image of God as an expression of God's eternal love, to live in God's perfect will. As such, human beings are called to be faithful stewards of God's creation and to live in relations with God, each other, and the created world.
 - We believe in God the Spirit, Lord and giver of life who reveals Jesus Christ to human beings to transform them through conversion and sanctification to full humanity as willed by the Creator.
 - We believe that Jesus Christ was conceived through the power of the Holy Spirit, born of the Virgin Mary, and is truly God and truly human.
- We believe that He lived a fully human life as Jesus of Nazareth, who walked with us, ministered to us, and proclaimed the Reign of God.
- Because human beings sinned and suffered the penalty of death, we further believe in the life and death of the Lord for our sins, in the resurrection of His body, in His ascension to heaven, and in His personal and visible future return to the earth.
- We believe that our salvation is received through faith by grace through Jesus Christ, the only and sufficient mediator between God and humanity.
- We believe that Jesus Christ commanded us to be baptized and to partake of the Supper in his name.
 - We believe that baptism is the immersion of a believer in water in the name of God the Father,

God the Son, and God the Holy Spirit, signifying redemption through the death and resurrection of Jesus Christ together with the believer's death to sin and resurrection to newness of life.

- We believe that the Lord's Supper is a commemoration of the Lord's death until he returns.
- We believe that the Church is Jesus Christ's body on earth, called to witness and proclaim the good news of God's Reign and salvation to the world. The Church consists of believers, called by Jesus Christ to worship God, serve one another in a spirit of love and truth, and to proclaim God's Reign—not only through word, but also through deeds of love and justice. As a witness to the Reign of God, the Church embodies God's will to be one in diversity, to care for "the least of these," and to proclaim hope. Therefore, the Church is a light unto the world at all times and in all places.

REQUIRED

TCA 501 INTEGRATED ANTHROPOLOGICAL THEORY I 3

In the first integrated theory course, we will investigate the roots of anthropology in the middle 19th century and trace its history through the development of structural-functionalism in the middle 20th century. The concept of "culture" constructed during this time will be analyzed in terms of the political circumstance of colonialism and the intellectual circumstance of the European Enlightenment. Harmonious views of social life rooted in notions of the "noble savage" will be deconstructed, as a Christian theology of sin is introduced to add complexity to the depiction of tribal peoples and cultures. The epistemology of positivism will be presented and critiqued as having contributed to a highly objectified view of human beings as just a species in nature. Theory from the four fields of anthropology (physical, archeology, linguistics, and socio-cultural) will be covered between the years, 1860-1960.

TCA 502 INTEGRATED ANTHROPOLOGICAL THEORY II 3

In the second integrated theory course, we will trace the history of anthropology from the collapse of structural-functionalism in the middle 20th century to the present.

Particular attention will be given to conflict theory, and to structure and agency. Both structuralism (idealism) and materialism will be deconstructed with a holistic view of the person rooted in the Christian theology of creation. Anthropology's current crisis of postmodernism will be studied in the context of the spread of globalization and its paradoxical result: ethnic identity politics and the collapse of the concept of "culture." Contemporary ethnography will be analyzed with a post-critical epistemology that parallels the Biblical concept of "witness," and the Christian theology of redemption will be acknowledged as the source of hope for humanity. Theory from the four fields of anthropology (physical, archeology, linguistics, and socio-cultural) will be covered from 1960 to the present.

TCA 530 THEOLOGY OF CULTURE 3

This will be a course on the theological origins and purposes of human culture, setting human culture-making within the broad contours of the Christian story. We will be considering three fundamental theological ideas that account for the reality and importance of human culture: God as triune Creator, the created order as contingent, and the human person in the image of God as culture-maker. Eschatological ideas will also be important in helping us to discern the purpose and direction of human culture: its goodness, corruption, and transformation. All of these subjects will require us to do Christological reflection. So, the course will be theologically demanding and focused, although we will have to consider works from social psychologists, anthropologists, and sociologists on the way. Be prepared to learn not only the language of theology, but other disciplines as well.

TCA 550 EPISTEMOLOGICAL INSIGHTS FOR ANTHROPOLOGICAL PRACTICE 3

The goal of this course is to assist the student in understanding the nature of the social sciences in general and anthropology in particular, in light of recent philosophical discourse concerning the nature of knowledge and truth. The course will trace a sampling of the historical discourse related to the development of social theory, the consequent impact this has had on the quest for truth, certainty and faith, and the way all of this relates to the field of anthropology and anthropological fieldwork. Finally, the above examination will be undertaken in order to gain insight into the nature of Christian faith and its relationship to the discipline of anthropology.

TCA 570 FAITH-BASED ETHNOGRAPHIC METHODS 3

This class is a hands-on practical course in applied ethnographic methods. Ethnography's purpose is to write a "thick description" of a culture, that is, to describe cultural processes fully and to interpret them correctly. Applied ethnography uses the findings to assist people in solving human problems. Students will be trained in ethnographic techniques such as participant observation, informal interviewing, field note taking, data analysis, and ethnographic writing. Methods read about and discussed in class will be practiced in exercises leading up to the construction of a final project.

TCA 600 ON KNOWING HUMANITY COLLOQUIUM 1.5

The colloquium series is a weekly event in which students, faculty, and invited guests present ideas which are at the cutting edge of anthropological thought. Interaction between anthropology and theology is especially central to the discussion. In addition, professional skills such as writing, lecturing, paper presenting, publishing, and developing ideas will be discussed and practiced.

TCA 680 THESIS IN THEOLOGICAL AND CULTURAL ANTHROPOLOGY 3

The thesis provides students with the opportunity to do their own analytical research under the guidance of a faculty mentor. Students select their mentors from a list of qualified faculty. Faculty guide students through the process of data collection, analysis, and writing. The thesis is written at the end of the curriculum, so students are prepared by their theory classes, their experience in ethnography, their elective menu of applied studies, and by having listened to other researchers presenting at the colloquium series. Students do original thinking and write a refined paper at the graduate level.

NTG 524 CHURCH RENEWAL AND EVANGELISM 3

"Church renewal leads to evangelism leads to church renewal leads to evangelism." At the risk of oversimplification, this process may well describe the whole of the Christian faith for the last 2000 years. At the very least, it

describes the inseparable relationship between the two; for we cannot speak of renewal without evangelism nor evangelism without renewal. This course grounds this relationship *theologically*, as it guides us in biblical study as well as in contemporary issues that are relevant to the subject. By the very nature of renewal and evangelism, however, this course also compels us to understand the relationship *practically*, as it explores missional church models as well as church-based evangelism strategies.

SFRM 510 SPIRITUAL FORMATION 3

An experiential study of several traditional Christian spiritual disciplines. In partnership with course classmates, students will engage in reflection, readings, discussions, lectures, journaling and spiritual exercises intended to enable them to develop more conscious intentionality in their own spiritual formation, and that of the communities in which they minister.

THLE 610 CHRISTIAN FAITH, POLITICAL PRACTICES, AND PUBLIC POLICY 3

This course focuses on current issues in political action and public policy such as immigration, poverty, the federal budget, a consistent life ethic, Israel and Palestine, civility in public discourse, ecumenical and inter-faith cooperation, organizing a campaign, and running for political office. Texts include Ron Sider's *Rich Christians in an Age of Hunger and Fixing the Moral Deficit: A Balanced Way to Balance the Budget*; Tony Campolo's *Red Letter Christians*, and Jim Wallis's *God's Politics: Why the Right Gets it Wrong and the Left Doesn't Get It. Theology, Ethics, or Public Policy Elective*.

THLE 611 THEOLOGY AND PUBLIC POLICY 3

A theological/biblical analysis of the problems involved in moving from biblical revelation and theological concepts to concrete public policy proposals.

THLE 612 POLITICAL AND PUBLIC THEOLOGIES 3

This course is designed to provide theological and ethical reflection on political thought and action. Representative doctrines for the Christian faith will be discussed with their implications for responding to government and politics. Participants will explore classical and contemporary formulations of the relationship between the church and the socio-political order. Biblical, historical and philosophical resources will be examined and interrogated. In addition, students will be asked to question two divergent yet related schools of thought: political theology and public theology. Our chief objective will be to consider sound theological-ethical options for Christians as they participate in the political order.

THLE 615 GLOBAL SOUTH THEOLOGY AND PUBLIC POLICY 3

This seminar style course is an introduction to political and liberation theologies and approaches to Christian faithfulness and public policy in the global south. We focus on learning from authors in, from, or related to Latin America, Africa, Asia, and the Middle East (authors and titles include

Eduardo Galeano, *Open Veins of Latin America*; Choan-Seng Song, *Third-Eye Theology*; Ada Maria Isasi-Diaz, *Mujerista Theology*; Mercy Oduyoye, *Introducing African Women's Theology*; Dario Lopez Rodriguez, *The Liberating Mission of Jesus*; Marianne Katoppo, *Compassionate and Free: An Asian Woman's Theology*; Alex Awad, *Palestinian Memories*).

THLE 616, THEOLOGY OF NONVIOLENCE AND SOCIAL CHANGE 3

The "Arab Spring" of 2011 reminded the world both of the power of nonviolence to bring about social change and of the significant costs involved. In this course we will explore the theological and biblical resources in Christianity that support as well as interrogate nonviolent praxis and aggressive nonviolent direct action. We will discuss the spirituality of nonviolence, alternatives to both passivity and violence, justifications of violence and revolution, coercion, responsibility vs. faithfulness, and the pragmatic realities of refusing to kill people in order to improve one's socio-political-economic situation or in order to protect life. Readings will include Dorothy Samuel, Lisa Sowle Cahill, Dorothy Day, Martin Luther King, Jr., Gandhi, John Howard Yoder, Stanley Hauerwas, Gene Sharp, Sami Awad, and others.

THLE 620 THE BIBLE, PACIFISM, AND JUST WAR 3

Students will read texts of people arguing that biblical faith leads to pacifism and others arguing for Just War. Each student will write a paper: "Does the Bible prompt me to endorse pacifism or Just War?"

THLE 623 CHRISTIAN SOCIAL ETHICS 3

An introduction to ethical discourse, this class will survey the field of theological ethics so that Christians may engage the ethical issues of the common life, shape the institutions of society, and aid persons in forming faithful and objective moral judgments about public matters. Special attention will be given to the relationship between Christian faith and economics, politics and law. A sub-theme will be ecclesiology, a critical examination of the mission and purpose of the Church.

THLE 624 TRUTH AND TRANSFORMATION 3

The goal of this course is to explore ethical and philosophical dimensions of projects of social and political transformation. The category of "vision" will be developed and deployed metaphorically; used as a trope to describe how moral actors receive, review and relate messages to their constituencies. Attention will be paid to how specific moral actors were "educated" by these messages, how specific moments and stages in their lives were formative for their emotional, intellectual and "spiritual" maturation and how this maturation impacted broader social dramas. An attempt will be made to probe the critical interplay between the individual moral subject and the social dramas and currents that shaped their eras. Selected historical personages will be viewed as *religiousis homoiousios*, as prismatic figures embodying certain constitutive features of their time, people or civilization.

Doctor of Philosophy in Organizational Leadership

This 60-credit advanced research degree provides a core curriculum in organizational and leadership theory with a focus on transformational leadership. Concentrations in business leadership, nonprofit leadership, and educational leadership provide opportunities for students to complete sector-specific studies. The program is undergirded by a series of research methodologies courses, culminating in a dissertation.

The core curriculum consists of 12 courses in research methodologies and the leadership of dynamic organizations.

LEAD 710 HISTORICAL AND CULTURAL PERSPECTIVES OF ORGANIZATIONAL LEADERSHIP 3

In this course, students will examine the history of leadership theory to understand the pattern of its development and to explore where the study of leadership may go in the future. Students will also explore the nature and character of leadership. The key questions are: What is leadership? What are the different aspects of leadership? How has that understanding remained the same or changed throughout Western history? How does context affect the nature of leadership? What are the moral purposes of leadership? This course utilizes an interdisciplinary approach in its survey of leadership issues, incorporating historical, literary, political, scientific, sociological, and theological perspectives.

LEAD 720 LEADERSHIP THEORY AND PRACTICE 3

As a field of study, leadership is a complex subject. This course will expose students to leadership literature and theories, so that they may use them as a platform in order to reflect on their personal practices within their own organizations. Because leadership is influenced by the complexities of the human element, as well as various worldviews and their corresponding value systems, students will be challenged to integrate their understanding of leadership practice with the tenets of Christian faith. Through this course, students will develop an understanding of the main exponents of leadership theory and their respective theories as they learn to critically evaluate their own personal practices as leaders. Completion of this course will satisfy Pennsylvania standards in the preparation of superintendents, specifically the certification requirements for the "Letter of Eligibility."

LEAD 730 MODELS OF ORGANIZATIONAL BEHAVIOR 3

In this course we will explore the dynamics of human behavior in organizational settings by familiarizing ourselves with basic organizational behavior (OB) theories at these various levels of analysis. A recent shift in the field is the prominence OB scholars have given to the role of positive psychology. From this perspective, managers strive to be altruistic, authentic, and transformational in their interactions with followers. In addition, each individual is viewed as inherently seeking to live a virtuous life by realizing their true vocation or calling. In short, regardless of our profession or work environment, we are whole beings who can-

not, and should not separate our values and spiritual needs from our professional pursuits. When managers, employees and organizations recognize the value of and pursue such a philosophy of organizational behavior, we can achieve extraordinary levels of success and fulfillment. Completion of this course will satisfy Pennsylvania standards in the preparation of superintendents, specifically the certification requirements for the “Letter of Eligibility.”

LEAD 740 FOUNDATIONS OF RESEARCH METHODOLOGY 3

This course is the first of four courses aimed at grounding doctoral students in the methods of social and behavioral science research and thus begins the preparation for the doctoral dissertation. It is assumed that students will have some background in statistics and research methodology, nevertheless this course will revisit the foundations of research methodology providing students with a basic framework to critically evaluate social and behavioral science research. Students will be evaluated on their understanding and ability to apply the major concepts and methods of qualitative and quantitative research. The application part of this course emphasizes the critique of research articles and in particular the appropriateness and strength of the research methods used. This course should enable students to evaluate more critically the claims of the author’s in the scientific literature as well as the “experts” in the popular press. To learn method is to learn how to reflect on the world in a systematic way.

LEAD 800 DIRECTED STUDY 3

Students with a demonstrated ability and special interest may take a graduate course offered in one of the CCGPS programs, as a directed study. This is appropriate when a student has a specialized and compelling academic interest that cannot be pursued within the framework of the regular curriculum or a regular course. A directed study would substitute for one of the courses in the designated concentrations. Note: Doctoral students need to have earned a minimum of 36 credits before attempting a directed study.

LEAD 810 STRATEGIC LEADERSHIP AND ORGANIZATIONAL CHANGE 3

This course will enable students to develop an understanding of strategic management concepts and to analyze, assess, and resolve complex management problems. Students will learn to use the four analytical techniques of SWOT (Strengths, Weaknesses, Opportunities and Threats) analysis, value chain analysis, strategic cost analysis, and competitive strength assessment in the formulation of comprehensive leadership strategies. Students will also explore theories of organizational change with an emphasis on transformational change (change that occurs at a fundamental level of the system). Strategies for identifying and positively affecting the core of the organization will be discussed. Further, students will acquire a vocabulary and conceptual framework for integrating technical definitions of communication, subjectivity, motivation, and beliefs into a coherent image of collective activity. They will also practice strategies, models, and methods for adapting to and affecting change in interpersonal and group situations. Completion of this course will satisfy Pennsylvania stan-

dards in the preparation of superintendents, specifically the certification requirements for the “Letter of Eligibility.”

LEAD 825 CAPACITY BUILDING IN HUMAN RESOURCES 3

This course introduces human resource management from a strategic perspective. In this course, students will learn how to manage human resources effectively in the dynamic legal, social, and economic environments currently governing organizations. Students will develop an understanding of strategic management and its importance in building an effective and healthy organization. Among the topics included are: formulation and implementation of human resource strategy, methods of recruitment and selection, techniques for training and development, performance appraisal, compensation and benefits, and the evaluation of the effectiveness of HRM systems. The course will adopt an integrative approach in that applications will be made to organizations within the business, education and non-profit sectors and supported with studies/case studies in the respective fields. Completion of this course will satisfy Pennsylvania standards in the preparation of superintendents, specifically the certification requirements for the “Letter of Eligibility.”

LEAD 830 LEADERSHIP, SPIRITUALITY AND MISSION 3

This course introduces students to the nature and purpose of spirituality and spiritual development. The course proposes to assist students in constructing and refining those spiritual principles of interpretation that are philosophically, theologically, and pastorally relevant to the tenets of the human condition within the Christian community and other religious traditions. The placement for leadership (for this course) lies within the context of human development, spiritual awakening, and self-discovery through introspection and reflection. This course is leadership oriented, spiritually significant, and theologically challenging to help integrate holistic and personal growth in areas that are quintessential aspects of a leader illuminated by spirituality. The critical questions that must be asked and answered are: How does each of the eight interdependent areas impact and enhance leadership either individually or collectively?

LEAD 840 LEADERSHIP, JUSTICE AND SERVANTHOOD 3

Meaningful responses to human suffering are grounded in discernment regarding human conflict; harm and oppression; power and the abuse of power; and the rights, responsibilities, and opportunities – personal, communal, and global – that arise from the crucible of potential that is our humanity. Using a lens of contemporary social justice theory, students will look at what it means to be leaders who champion just systems and practices in their own organization, industry sector, and profession. This course asks students to address such questions as: What does it mean to lead justly, to advocate for justice? How can one choose servant leadership, restorative justice, and forgiveness in the face of systemic oppression, suffering, and grave human atrocities? What does it mean to be a person of restorative justice and forgiveness? In Leadership, Justice, and Servanthood, students engage in reading, reflection, research, and

discussion that inform their practice as leaders and leadership scholars who advocate for justice and who model servant leadership.

LEAD 860 LEADERSHIP IN GLOBAL CONTEXTS 3

Because globalization is an evolving concept relative to all disciplines, 21st-century leaders must develop a framework for engaging with all of the opportunities and challenges presented by global interconnectedness. This course examines the complex issues related to leadership within a global context. The practice of effective and moral leadership requires attention to particular contextual and situational factors, including the specific needs and perspectives of individual leaders and their followers, as well as the various dimensions of culture that inform and influence both the theory and practice of leadership. In this course, we will seek to understand how culture and identity shape moral worldviews and methods of interaction. In addition, we will critically engage with thinkers who offer—individually and collectively—their own normative conceptions for constructing cross-cultural ethics or even a “global ethic”. Finally, students will examine not just how practices of effective and ethical leadership vary across nations and cultures, but also the ways in which leadership theory itself is culturally dependent.

LEAD 870 QUALITATIVE RESEARCH METHODOLOGY 3

This research methodology course introduces doctoral students to a variety of qualitative research methods and the research process of doing fieldwork, analyzing and interpreting data, and writing a report. Students will gain knowledge of qualitative research methods, such as narrative study, autoethnography, ethnography, grounded theory, phenomenology, and case study; develop a workable research design based on their self-selected topic and method, conduct a mini-scale research study, write a research report, and present the report to the faculty and peers. LEAD740 is a prerequisite to this course.

LEAD 871 QUANTITATIVE RESEARCH METHODOLOGY 3

This research class introduces students to the knowledge base, processes, and experiences involved in designing, conducting, and reporting quantitative research studies relevant to selected research problems in the social sciences. The course examines frameworks for quantitative field studies and experimental designs, assessment of measure reliability and validity, and use of descriptive and inferential data analysis. Students will apply course content toward the conceptualization and completion of an empirical study on a selected topic. This class utilizes a research team model and requires participation and collaboration by well-prepared students every week. LEAD740 is a prerequisite to this course.

LEAD 880 ADVANCED QUALITATIVE RESEARCH 3

This advanced qualitative research seminar course provides an opportunity for third-year doctoral students who elect a qualitative research method for their dissertation study to conduct an extensive literature review on their research

method and to complete the method chapter of their proposal. For this reason, students are expected to learn independently and take an active role in searching and critically evaluating reading materials suitable for their dissertation topic and method. Students who elect this course are expected to have a clear idea of their dissertation topic and have selected their research method. This course is offered as one of three advanced method course options in the third year of study (other two options are LEAD881Advanced Quantitative Research and LEAD882 Research Team).

LEAD 881 ADVANCED QUANTITATIVE RESEARCH 3

In this course, students learn and apply methods for conducting research projects and analyzing information to answer research questions and test hypotheses. The course covers methods of study and analysis used in quantitative research in the fields of organization and leadership. The course involves study design, as well as collection and analysis of data. It includes executing and writing up the results of a research study. It also includes dialogues that cover key issues in measurement in quantitative research, statement of testable hypotheses, presentation of statistical analysis, and interpretation of research findings. Throughout the course process, students are called upon to improve scholarly writing techniques and explore skills needed to successfully design and execute a PhD dissertation. This course is offered as one of three advanced method course options in the third year of study (other two options are LEAD880 Advanced Qualitative Research and LEAD882 Research Team).

LEAD 882 RESEARCH TEAM 3

This course is aimed at giving doctoral students practical experience in designing and conducting full-scale empirical research by working in a research team guided by a faculty member. The topic of research is determined by the faculty mentor, depending on his/her research agenda. The research seminar agenda is focused on reading and evaluating research on the topic set by the faculty mentor, collecting and analyzing either qualitative or quantitative data (or both for mixed methods projects), and/or writing and publishing a research report. The focus of the course may vary each year. Students must gain permission from the faculty mentor to participate in this course. Once accepted to the course, they are to be expected to participate in the research team for at least two semesters. Space is limited in the course. This course is offered as one of three advanced method course options in the third year of study (other two options are LEAD 880 Advanced Qualitative Research and LEAD 881Advanced Quantitative Research).

BUSINESS LEADERSHIP CONCENTRATION

MNGT 750 ORGANIZATIONAL DESIGN 3

This course examines contemporary organizational design, evaluating organizations as living, dynamic systems. Organizations are explored through the frames of structure, human resources, politics, symbols, chaos and complexity, and appreciative inquiry. Students will also be introduced to classical organizational theory and will learn to critically examine the role of the leader in organizations.

MNGT 765 LEADING IN COMMUNITY: PEOPLE, PROBLEM SOLVING AND CONFLICT 3

Interpersonal relationships within an organization are critical to the success of the enterprise. Although leaders must often focus on articulating the mission and vision of an organization to external constituents, this emphasis may lead to underdeveloped structures and undernourished personnel within the organization. Leading in Community will provide students with multiple frameworks within which to analyze their own leadership styles, characteristics and effectiveness for the purpose of cultivating community within the organization. In addition, this course will focus on the role of Human Resources within an organization. By the completion of the course, students will develop an ethical framework to identify organizational systems and processes for increasing communication, solving problems, and reducing conflict.

MNGT 780 TRAINING AND DEVELOPMENT 3

Building upon the belief that people are an organization's greatest resource, this course examines effective methods for providing employees with training and professional development experiences in order to align them with the purposes, values, and culture of a particular organization. Students will engage with both research and best practice to determine the roles of the leader, the human resources department and external resources in training employees. By the completion of this course, students should be equipped to design and conduct a professional development program based on research, models, standards, and processes, as well as to evaluate and articulate the effectiveness of training and development programs.

MNGT 880 CONSULTING PRACTICE 3

This course examines the philosophy of consulting to include the 'main body of leadership mind'—ethics, courage, reality, and vision—as intelligence tools. It also analyzes the consulting domain as it relates to internal and external barriers of organizations, such as structural concerns, gaps in leaders' skills and knowledge, and effectiveness of collective intelligence. Students will learn to understand, apply, analyze, synthesize, and evaluate consulting principles and practices through a variety of instructional activities and to participate in the consulting process through case studies and research.

NONPROFIT LEADERSHIP CONCENTRATION

BUSA 750 STRATEGIC MANAGEMENT OF NONPROFIT ORGANIZATIONS 3

Guided by the unique mission of the nonprofit sector, this course will develop the students' ability to manage organizational resources strategically. Specifically, the course will cover the use of operational and financial data for nonprofit management decision making, review organizational and governance models, including hybrid models (profit generation within a nonprofit), to ensure alignment with the organization's mission and long term sustainability.

BUSA 760 ADVOCACY AND PUBLIC POLICY 3

As governments make public policies that have significant impacts on human relationships of all types, those who desire God's justice and peace for the world make understanding and influencing policy a priority. Thus, this course prepares

leaders to analyze public policy and assess and deploy appropriate strategies to engage the public and governments at all levels. First, students will evaluate historic models of public engagement to assess the roles and strategies of groups engaged in civil society. Students will also become familiar with the range of government policy instruments and strategies used in various national and political contexts. Second, coursework will emphasize developing critical analyses of the broad range of conceptual and strategic approaches to advocacy and utilizing and evaluating policy analysis tools. Students will compare critical policy needs in various countries and appraise the policy analysis tools and advocacy strategies surveyed. In order to approach advocacy from a uniquely Christian perspective, participants will examine the Christian witness to the state (at all levels) and evaluate the role followers of Jesus have in walking with the oppressed to seek justice for them. Case studies from a variety of Christian and secular organizations will highlight the various approaches used to influence policy and levels at which advocacy can occur.

BUSA 770 ADVANCEMENT, FUNDRAISING AND PHILANTHROPY FOR NONPROFIT 3

This course will examine the timeless subject of philanthropy, beginning with its Judeo-Christian roots, tracing its development through history, and culminating with research findings in contemporary philanthropy. Historical analysis of the role of money and giving in society will be balanced with a view of modern philanthropic developments. Challenges to voluntarism and philanthropy will also merit our attention. The aim of our study, debate, interaction, and reflection will be to engage the hearts, minds and souls of those on whom our institutions depend—the philanthropists—in order to find a commonality of vision that extends shared wishes and dreams. The domains, structure, and competencies of the modern development office will be explored and practiced.

BUSA 880 COLLABORATIVE LEADERSHIP AND PARTNERSHIP 3

This course will cover the development of a philosophy of partnership and collaboration for the organization tying it to the concepts of servant leadership and organizational stewardship. Practical implications will be the conceptual and practical questions in the design, implementation and ongoing management of partnerships both with the internal stake holders and external organizations. Collaborative competencies and models of partnership between nonprofits and government, nonprofits and the church, and nonprofits and nonprofits will be examined.

EDUCATIONAL LEADERSHIP CONCENTRATION

EDU 750 LEADERSHIP AND THE CHIEF EXECUTIVE OFFICER IN EDUCATION 3

This course addresses the unique role of the chief executive officer of an educational institution, whether the president of a university, head of a private school, or superintendent of a school district. The CEO of an educational institution has responsibility for the multiplex of issues that impact his or her office. Students will analyze that multiplex to determine how the CEO can be most effective, evaluating the relevant political, economic and social factors, the focus on academic excellence, the clarification of organizational structure, the recognition of decision-making patterns, the

necessity of strategic leadership, and the strategies of consensus building. Emphasis is placed on the leadership skills necessary for the successful CEO to lead his or her educational enterprise. Completion of this course will satisfy Pennsylvania standards in the preparation of superintendents, specifically the certification requirements for the "Letter of Eligibility."

IN EDUCATIONAL LEADERSHIP AND
POLICY 3**

This course will introduce to educational leaders concepts, theories, and policies pertaining to educational equity and justice and governance accountability; help the leaders apply the equity framework to the critical analysis of national, state, and local policies affecting educational practices in their organization; and develop the leaders as transformational problem-solvers promoting educational equity, justice, and accountability. The leaders are expected to utilize qualitative and quantitative information from scholarly and primary sources to gain knowledge of educational policies and to seek ways to improve the policies to effect equitable, just, accountable education for all students. The role of boards in educational institutions will be examined. Completion of this course will satisfy Pennsylvania standards in the preparation of superintendents, specifically the certification requirements for the "Letter of Eligibility."

**EDU 780 ADVANCED STUDY OF EDUCATIONAL
LAW AND FINANCE 3**

The first part of the course focuses on methods to analyze financial status, forecast financial projections, and negotiate financial solutions for building programs. The second part of this course focuses on contemporary legal issues confronting primary, secondary, and post-secondary (higher educational) institutions. Completion of this course will satisfy Pennsylvania standards in the preparation of superintendents, specifically the certification requirements for the "Letter of Eligibility."

**EDU 880 EDUCATIONAL LEADERSHIP
PRACTICUM 3**

The emphasis of this course is placed on the integration of prior course work and work-place experience necessary for the preparation of the educational leader who intends to serve in higher education, K-12 public education, private schools, charter schools, international schools, for-profit schools, or educational consulting firms. This course is designed for students to apply knowledge acquired from prior core and concentration courses through a mentored practicum experience. Two sections of the course are typically offered. In the K-12 section, the course will provide for reflective experience in various leadership functions including: finance, law, curriculum, assessment, planning, human resources, communication, student development, advancement, marketing, community relations, or governance. Seventy hours of extended practicum hours are required for students pursuing the Superintendent Letter of Eligibility. The higher education section focuses on

higher education teaching, introducing university teaching as a profession and vocation. Students will examine critical issues in higher education, historically and currently, explore pedagogy and practice teaching skills appropriate to various institutional settings, populations and methods of delivery. Ultimately, students will be prepared to define their own philosophy of teaching, develop effective teaching skills and artistry, and plan to navigate a university career. 15 hours of on-site field work/ internship are required.

COMPREHENSIVE EXAMINATIONS

Successful completion of comprehensive examinations is necessary for progression to Ph.D. candidacy in the program. Comprehensives include two parts, written exams and portfolio. The written exams are administered after successful completion of two years (36 credits) with a cumulative grade-point average of at least 3.0 prior to sitting for examinations. The portfolio is submitted after the successful completion of three years (51 credits) with a cumulative grade-point average of at least 3.0. An examination committee consisting of three faculty members chosen by the program director shall determine the content of the written exam portion of the comprehensives.

LEAD 910 DISSERTATION PROPOSAL SEMINAR 3

This seminar introduces students to the process of dissertation proposal development. Utilizing online discussions, student evaluations, and faculty feedback, this course will provide students with the opportunity to apply the knowledge obtained in previous research design courses, to develop their ability in writing research questions/hypotheses, and to critically evaluate organizational leadership research proposals. By the conclusion of the seminar, each student will complete the first draft of his/her concept paper.

**LEAD 920, DISSERTATION I, II, III 3, 3, 3
921, 922**

The doctoral dissertation in Organizational Leadership is designed to demonstrate the student's ability to conduct scholarly research. This project is accomplished through the collection and analysis of research data on a specific problem. The research must be on a problem worthy of study, using both primary and original data. The goal is to develop new sources of knowledge within an intellectual tradition. The dissertation should be original research that contributes to the field of knowledge, while simultaneously demonstrating the student's comprehension of existing scholarship on the subject. LEAD 910 is a prerequisite to LEAD 920 and subsequent dissertation courses.

LEAD 931 DISSERTATION CONTINUATION 0

Students must enroll in this two-credit dissertation continuation course each semester to receive uninterrupted advising from their dissertation chair and members beyond LEAD920/921/922 until the semester when they defend their dissertation and are conferred. These credits do not accrue although students are billed for two credits.

If the course work is scheduled in a session coded other than FA, SP, S1, S2 or SUM, and includes a residency portion, full tuition will be charged for any portion of the residency attended for that course.

Some programs include delivery of books. The student will be fully charged for the delivered books, as well as books/materials distributed for subsequent courses, even if not attended. The student must request to return the unused books to the Director of Student Services within 10 days of the withdrawal notification to the Office of the Registrar in order to receive a refund of these materials. The amount of the refund will be determined by the Director of Students Services based on the completeness and condition of the materials returned.

Any student who purchased a laptop computer as part of the Campolo College’s laptop program must consult the contract for information about returns and refunds.

MONTHLY ACCOUNT STATEMENT

On or about the 15th of every month, an account statement will be generated. Eastern University and CASHNet provide online billing and payment services. The monthly account statement is a reflection of all financial transactions including late penalties and service charges posted to your account up to the date on which it is generated.

Please keep in mind that it often takes a week or more from the time the payment is mailed until it is reflected on your account. **Please Note:** *If the financial aid that you are anticipating is not reflected in your monthly statement, please contact the Financial Aid Office directly at 610.225.5102.*

NOTIFICATION

The Student Accounts Office sends all billing, statement, and warning correspondence to the student’s secure Eastern University e-mail address unless otherwise requested.

STUDENT FINANCIAL AID INFORMATION

The financial aid program at Eastern University offers assistance to graduate students through the Federal Stafford Loan Program and Eastern University Campus Employment (ECE). Contact the Office of Graduate Admissions for information on graduate scholarship or assistantship programs. Be sure to specify your program of study.

In order to receive any type of financial assistance, a student must:

- Be fully accepted as a matriculated student in a degree or an elementary or secondary teacher certification program
- Be enrolled at least half-time
- Have made satisfactory academic progress at the end of the previous academic year
- Have applied for financial aid by the published deadline each year aid is requested

Financial Assistance is not available for:

- Provisionally accepted students
- Students enrolled as non-degree students
- Courses being taken for personal enrichment

FEDERAL DIRECT STAFFORD LOAN PROGRAM

The Free Application for Federal Student Aid (FAFSA) must be submitted each academic year in order to participate in the Federal Direct Stafford Loan Program. In addition, students must complete and submit a Federal Direct Stafford Loan Master Promissory Note (MPN) and the Federal Direct Stafford Loan Entrance Counseling before the loan may be certified.

FOUNDATION COURSES

Graduate students must complete any required foundation courses during the first twelve (12) months of their enrollment in order to have these courses considered for financial aid. Foundation courses taken after the first year will not be considered for aid or for Satisfactory Academic Progress.

CERTIFICATION PROGRAM

The Federal Direct Stafford Loan is available to eligible elementary or secondary Teacher Certification students if they meet the standard loan eligibility criteria above and the following guidelines:

- **Education Certification students** (not enrolled in a graduate degree program) may qualify for up to \$12,500 in the Federal Direct Stafford Student Loan Program each financial aid year if the student has not exceeded their undergraduate aggregate loan limit and is enrolled for a minimum of six (6) credits in that semester. Students enrolled only in the Education Certification programs are not eligible to receive Eastern Graduate Assistantships or Scholarships.
- **Post-certification M.Ed. students** may qualify for up to \$20,500 in the Federal Direct Stafford Student Loan Program each financial aid year as long as they have

not exceeded their aggregate loan limit. Master's degree candidates may also apply for consideration for an Eastern University Graduate Scholarship or Assistantship.

- **Post-master's students** may qualify for participation in the Federal Direct Stafford Student Loan Program to complete elementary or secondary Teacher Certification requirements if they have not exceeded their aggregate loan limit. However, these students are not eligible to receive Eastern University Graduate Assistantships or Scholarships.

INTERNATIONAL STUDENTS may apply for a Federal Direct Stafford Loan if they are considered to be an eligible non-citizen and have a valid SSN and a valid Student Aid Report (SAR) from filing the Free Application for Federal Student Aid (FAFSA). These students may also apply for consideration for a Graduate Scholarship or Assistantship if they meet the other criteria on those applications.

PRIVATE ALTERNATIVE LOAN PROGRAMS are available for students unable to participate in the Federal Direct Stafford Loan Program or students interested in additional funding.

SATISFACTORY ACADEMIC PROGRESS FOR FINANCIAL AID

Financial Aid satisfactory academic progress is comprised of two components: GPA and pace of completion. Standards can be found on the Financial Aid Web site at www.eastern.edu/financial-aid-office/satisfactory-academic-progress.

WITHDRAWAL FROM COURSES

A student who receives Title IV Federal Financial Aid and wish to withdraw from ALL courses during an enrollment period must provide written notification to an academic advisor and the Office of the Registrar. The change of enrollment status processed by the Office of the Registrar will alert the Financial Aid Office to review the student's record. Students participating in the Federal Direct Stafford Loan Program must complete a Loan Exit Interview online at www.studentloans.gov (If a student withdraws without notification, the last date of recorded class attendance or the mid-point of the semester will be used as the withdrawal date for financial aid reporting.)

A student who is receiving any type of financial assistance and drops a class or withdraws from a class (or classes) should contact the Financial Aid Office to learn how the change in enrollment status will affect financial aid eligibility. 610.225.5102

LEAVE OF ABSENCE (LOA)

Leave of Absence status is limited to special requirements under Title IV federal financial aid regulations. Students needing to withdraw from ALL courses during an enrollment period should withdraw from the program and apply for readmission at a later date.

RETURN OF FEDERAL TITLE IV FUNDS

The Financial Aid Office recalculates Federal Title IV financial aid for all students receiving Federal Title IV assistance who withdraw, drop out, are dismissed or take a leave of absence from all courses.

Recalculation is the determination of the percent of Federal Title IV aid that the student is eligible to receive. The calculation takes into consideration the amount of aid awarded, the length of the semester and the number of days the student attended prior to his/her removal from classes.

When Federal Title IV aid is returned, the student may owe a balance to the University. Students owing a balance should contact the Student Accounts Office to make payment arrangements. The Student Accounts Office can be reached by calling 610.341.5831.

Federal Title IV aid includes Federal Grants as well as Federal Stafford Loans awarded. The withdrawal date is defined as the actual date that the student begins the withdrawal process or expresses the desire to withdraw from the University. The withdrawal date will be the student's last date of recorded attendance or the midpoint of the semester for a student who leaves without notifying the University.

NOTIFICATION

The Financial Aid Office sends all financial aid information requests to the student's secure Eastern University e-mail address.

ACADEMIC POLICIES AND PROCEDURES

ADMISSIONS POLICIES

To be admitted to any graduate program, the applicant must meet the following academic criteria:

- Possess a bachelor's degree in any field from a regionally accredited college or university. If the bachelor's degree was earned outside the United States, the program of study must be equivalent to a four-year U.S. baccalaureate degree program.
- Have an overall undergraduate grade-point average of at least a 2.5 (professional/state requirements may require a higher standard for specific graduate programs).
- Obtain acceptable scores on admission or professional tests, if required by the specific graduate program.
- Ability to appropriately use contemporary technology tools for communication and online learning as indicated by the signed Disclosure of Online Learning Expectations form.

Note: Admission of F-1 students is based on the decision of the academic department. International students are not admitted into Counseling Psychology and master's level Organizational Leadership programs.

For applicants who studied in educational systems outside the United States

- Official evaluation of academic credentials in English from a NACES member organization is required. An evaluation from World Education Services is preferred.

For applicants whose language of instruction was not English:

- Minimum test of English as a Foreign Language (TOEFL) score of 79 (internet-based) or 213 (computer-based) or minimum international English language testing system (IELTS) score of 6.5

Specific programs may require interviews, essays, letters of recommendation, or other supplementary information prior to making admissions decisions. Undergraduate foundation courses may be required for graduate students who do not have adequate preparation to benefit from the graduate courses offered.

Admission to Eastern University is not automatic; that is, some applicants who meet or surpass minimum requirements may be denied acceptance. Each Eastern program reserves the right to accept or reject any applicant for reasons the University determines to be material to the applicant's qualification to pursue a degree. For example, a violation of integrity and honesty in the application process is a serious offense, considered to be sufficient basis to deny admission.

READMISSION POLICIES

Readmission after an absence of less than five years: Students who withdrew from Eastern University and plan to resume their studies within the five year period following the exit date must apply for readmission through the Office of the Registrar.

NOTE: Students who have not returned to Eastern within the period of five years or who plan to make significant changes in their programs of study, such as a change of degree objective or major, must apply through the Admissions Office and fulfill the graduation requirements in effect at the time of their return.

The Application for Readmission form with instructions is provided on the Registrar's web page www.eastern.edu/academic/registrar. A completed application form must be submitted to the Office of the Registrar at least four weeks prior to the beginning of the readmission session. All official transcripts from other schools attended during the period of absence must be sent to the Office of the Registrar for evaluation. Academic credit for courses and grades earned at other academic institutions may be granted up to the maximum permitted by the specific Eastern University program. Qualified applicants are accepted in good standing or on academic probation once they have paid all past due balances to Eastern University and other schools attended since leaving Eastern. Notification of the readmission decision is communicated to the applicant by electronic mail.

Readmission after an absence of more than five years or a request to change programs of study: Students who have not returned to Eastern within the period of five years or who plan to make significant changes in their programs of study, such as a change of degree objective or major, must apply through the Admissions Office. The online application is provided on Eastern's web site www.eastern.edu. The applicant must have paid all past due balances to Eastern University and other schools attended since leaving Eastern and complete all steps in the current admissions process. Official transcripts from other schools attended during the period of absence must be sent to the Admissions Office for evaluation. (Credentials received for past periods

of enrollment do not need to be submitted again.) Academic credit for courses completed at other academic institutions may be granted up to the maximum permitted by Eastern University policy. The accepted student must fulfill all graduation requirements in effect at the time of admission to the new degree or major.

ADMISSIONS STATUSES AND DEFINITIONS

Full Acceptance – The candidate provided all required credentials and fully meets the standards for admission.

Conditional Acceptance – The candidate provided all required credentials and fully meets the standards for admission once the baccalaureate degree is awarded. An official letter was received from the registrar of the degree-granting institution stating current enrollment status in an undergraduate degree program and the date (month and year) that the degree will be conferred. A final official transcript will be provided after the degree conferral date.

Provisional Acceptance – The candidate provided essential credentials and does not fully meet all standards for admission. A provisional acceptance allows the candidate to enroll in up to two courses in one semester to demonstrate an ability to be successful in graduate-level study and achieve the minimum grade-point average required by the program. Financial aid is not available to any student enrolled during the provisional status.

STUDENT CLASSIFICATIONS AND DEFINITIONS

Enrolled Student – A student is enrolled as of the first date of the semester, term or academic session if all admissions requirements have been met, a registration is properly submitted, and payment arrangements have been approved by the Student Accounts Office. The University reserves the right to cancel a student's registration if admission or payment processes are not complete by the end of the full refund period.

Matriculated Student – An enrolled student becomes matriculated when accepted into a degree program.

Degree Student — A degree student is one who plans to pursue a degree and who has been formally admitted for advanced studies in a particular program.

Provisional Student — Provisional admission is a temporary classification in which an applicant may remain for a period of **one semester or term**. If the deficiencies that caused the provisional admission are not corrected by the end of the period, the student may be dropped from the program. Note: Financial Aid is not available. Graduate Counseling Psychology and Education students are limited to six credits in this classification.

Non-degree Student — A non-degree student is one who meets all requirements for admission to a specific graduate program, but who does not intend to work for an advanced degree at this institution. This classification includes students who plan to transfer credits to another institution, students studying for personal enrichment, and those who plan special programs of study not connected with a specific department and not leading to an advanced degree.

Students must complete and submit an application, proof of graduation in the form of a final transcript from an accredited undergraduate program, and a non-refundable application fee prior to beginning course work. Courses with prerequisites may be taken only if the prerequisites have been met. A non-degree student wishing to take more than 18 graduate credits must apply through the Graduate Admissions Office to become a degree candidate in a specific program of study.

Certificate or Certification Student — A certificate student is one who is engaged in a program of study leading to a certificate or equivalent recognition of accomplishment rather than a graduate degree program. Candidates for certification (but not a master's degree) must submit the same credentials as degree applicants and be accepted before they can proceed with a program that will make them eligible for certification. Instructional I certification candidates must also complete an interview with the Graduate Education Advisor and may not enter a degree program until certification requirements are complete.

NOTE: External agencies have authority to impose new standards for certification before a student's program of study is completed.

Doctoral Student — A doctoral student is one who has earned a master's degree and is enrolled in the Doctor of Arts or the Doctor of Philosophy program.

Post Master's Coursework — A minimum of 12 credits of graduate work following an earned master's degree.

Graduate Student — A graduate student is one who has earned a bachelor's degree from a regionally accredited college, is not pursuing a second bachelor's degree, and is enrolled in graduate-level work.

Second Degree Student — A second degree student is one who has earned a master's degree and seeks another master's degree in a different program. The second degree student must complete the entire program of study and may not transfer courses from the first master's degree. When competencies have been met by prior course work, a department chair/program director will require alternate course work to ensure that the degree program meets all standards for content and credits.

Full-time/Part-time Student — Graduate students are full-time when enrolled for at least 9 credits in a regular semester/term; they are considered half-time when enrolled for at least 4.5 credits.

Doctoral students are full-time when enrolled for at least 6 credits in each regular semester or when completing the dissertation; they are considered half-time when enrolled in at least 3 credits in each regular semester.

International Student — An international student is an F-1 visa holder. F-1 students must be enrolled full-time.

ACADEMIC CALENDARS

Dates of course offerings and periods of enrollment are determined by the academic calendars approved by the faculty.

Student enrollment is reported according to the official beginning and ending dates of the academic session, term, or semester, not according to individual course dates. A student's degree date and eligibility to participate in commencement exercises is based on the last date of the final academic session, term, or semester, even if course work is completed prior to that date.

MAXIMUM COURSE LOAD

Graduate students are limited to a maximum of 18 credits in a regular semester and 6 credits in each summer session. Graduate students enrolled in term-based or residency programs are limited to the course load and credit hours specified for the term in their program of study.

TRANSFER OF CREDIT

A maximum of nine graduate semester credits may be transferred from another accredited graduate program with the approval of the director of the appropriate program and the dean. (Transfer credit is not accepted in accelerated, self-contained degree programs.) An official transcript for this course work must be received by Eastern in order for the course to be transferred. No credit will be granted for courses taken at another institution in which the student has earned less than a grade of "B."

Course work to be taken at other institutions during the student's enrollment at Eastern must be approved in advance. Permission forms are available on Eastern's Web site at www.eastern.edu/academic/registrar. Course grades and credits for transfer courses approved by the student's program appear on the Eastern University transcript and the quality points are calculated into the student's cumulative grade-point average.

ONLINE LEARNING EXPECTATIONS

Courses will be delivered fully on-ground, blended/hybrid (part on-ground, part online) or entirely online. A level of technology competency and access to a computer are required to function effectively. Students become familiar with technology requirements and expectations for course work by reading the Disclosure of Online Learning Expectations prior to their first registration.

CHANGE OF MAJOR AFTER ADMISSION

Acceptable scores on required admissions tests (e.g., GMAT) must be obtained before a request to change majors will be reviewed. Approval must be granted by the original advisor and the program director of the new major. Some programs have established deadlines for changing majors. It is the student's responsibility to consult with the program advisor to clarify eligibility and procedures.

CLASS ATTENDANCE

Attendance at all class sessions of accelerated courses is considered a critical element in the accomplishment of learning outcomes.

Class attendance for online courses is defined as an online presence demonstrated by active participation in all threaded discussions and virtual chats as required by the instructor. Failure to fulfill requirements within the parameters of each session will result in the student being marked absent.

It is recognized that class absences are sometimes necessary for extenuating professional or personal reasons. It is for these reasons that policies and procedures are established and published by the departments responsible for each program. Please consult your department's Web page or posted/printed materials for specific attendance expectations for your program.

INACTIVE STATUS

A student who is not enrolled in a current semester, term, or academic session will be reported as "Withdrawn" for enrollment purposes but may register for the following period without applying for readmission. If no enrollment occurs in a period of twelve (12) months, the withdrawal will be recorded on the academic record and the former student will need to apply for readmission.

READMISSION AFTER ABSENCE OF TWELVE MONTHS

Former students who left in good academic standing and wish to resume their studies must complete the graduate student application for readmission form located on the Registrar's Web page www.eastern.edu/academic/registrar. Readmission must be approved by the program advisor before a new registration will be accepted.

READMISSION FOR ADDITIONAL COURSEWORK AFTER PROGRAM COMPLETION

Former students who completed all program/degree requirements and wish to complete a new program or degree must apply for readmission through the Admissions Office. Special rules apply for financial aid eligibility.

TIME TO COMPLETE MASTER'S DEGREE PROGRAM

All requirements for a graduate degree, including courses, comprehensive exams, internships and thesis, must be completed within seven (7) years of enrollment as a degree candidate.

TIME TO COMPLETE DOCTORAL DEGREE PROGRAM

All requirements for the Ph.D., including courses, comprehensive exams and thesis, must be completed within ten (10) years of the first enrollment.

ACADEMIC ADVISING AND STUDENT RESPONSIBILITY

Students are responsible for all courses for which they are registered, except for courses they officially dropped by written notification to the Registrar. Advisors, program directors and the Registrar's representatives make every effort to assist students in satisfying course requirements in the desired time period, but it is ultimately the student's responsibility to meet all academic and financial requirements for the program of study.

DROPPING/WITHDRAWING FROM A COURSE

- During the first week of a semester, or the equivalent time in other sessions, a student may drop a course, thereby receiving no grade, by filing a "drop" request with the Registrar's Office.
- A grade of "W" will be entered on the academic record of any student who withdraws a course before 75% of the semester or term has elapsed. Courses carrying a grade of "W" receive no credit and are not counted in

the grade-point average, even though they may carry a financial obligation.

- A student who withdraws from a course after the 75% time frame will receive a grade of "WF" which is computed as an "F." (Exceptions are made for extreme circumstances and are handled on a case-by-case basis.)
- Students are advised to contact the Financial Aid Office to determine the impact of the withdrawal on overall aid eligibility.

NOTE: A student who fails to officially drop/withdraw from a registered course will receive a grade of "F" for the course.

The ability to withdraw and receive refunds for programs vary based upon the established policies of these courses. Grades of "W" are taken into consideration in the calculation of Federal Title IV eligibility. They are also taken into consideration when determining if a student has made Satisfactory Academic Progress.

DIRECTED STUDY

Some departments offer a directed study course for students with demonstrated ability and special interests. This course is appropriate when a student has a specialized and compelling academic interest that cannot be pursued within the framework of the regular curriculum or a regular course. Graduate students need to have earned a minimum of 6 credits before attempting directed study.

INDIVIDUALIZED INSTRUCTION

Individualized Instruction is the teaching of a regular catalog course to a single student. Individualized instruction is offered only when the University has failed to offer a course according to schedule or with sufficient frequency AND it is needed by a student for a critical reason (e.g., impending graduation or job). Both criteria must be met. Severe course conflicts and other student or faculty emergencies may be approved by the appropriate dean on a case-by-case basis as reasons for individualized instruction if no appropriate substitute course can be found.

COURSE REPEAT POLICY

- Graduate students may repeat courses in which they earned grades of "B-" or lower. Only two courses in the graduate program may be repeated. The same course may be repeated only once, including withdrawn courses.
- A student who has received a grade of "F" in a required course cannot graduate unless this deficiency is corrected. This course must be repeated the next time it is offered in the regular academic year. The course must be repeated at Eastern.
- When a student repeats a course, only the higher grade is used in calculating the grade-point average, but both grades appear on the transcript.
- Credit is granted once for a repeated course, unless the course description specifically allows accrued credit.

ACADEMIC APPEALS AND GRIEVANCES

An appeal is defined as a request to a higher authority to change a decision that was made, typically a decision that the student believes adversely affects her/his academic career. A grievance is a complaint or concern of a student

regarding a faculty or staff member at the university. For any academic appeal or grievance, if a student is enrolled in class(es) while the case is being heard, the student is responsible for the policies and procedures associated with the class(es).

Students wishing to appeal a course grade should follow the process listed under "Grade/Evaluative Action Appeal Process." The process for redress of grievances is found in the Student Handbook, under "Student Rights, Freedoms, and Responsibilities."

If a student wishes to appeal an academic decision other than a grade/evaluative action, the student shall make written appeal to Dean of the College in which the student is enrolled. The letter of appeal should include the date of the letter, the student's full name, the Eastern University student identification number, the action requested, and detailed reasons for the request, including all supporting documentation. The appeal should be complete, since once submitted, the student will not be able to submit further evidence or request reconsideration by the Dean. The Dean may, at his/her discretion, limit his/her review to the written record provided, seek a meeting (in person or telephonically) with the student, and/or draw on a faculty group to review and advise. Within fifteen (15) business days of receipt during the academic year, the Dean will notify the student in writing of the Dean's decision with respect to the student's appeal.

Academic Petitions (Request for Exception to Policy)

If a student wishes to petition for an exception to an academic policy, the student shall petition the Dean of the College in writing. The letter of petition should include the date of the petition, the student's full name, the Eastern University student identification number, the request (petition) for an exception, and detailed reasons for the request, including all supporting documentation. The petition should be complete, since once submitted, the student will not be able to submit further evidence or request reconsideration by the Dean. The Dean may, at his/her discretion, limit his/her review to the written items provided, seek a meeting (in person or telephonically) with the student, and/or draw on a faculty group to review and advise. Within fifteen (15) business days of receipt during the academic year, the Dean will notify the student in writing of the Dean's decision with respect to the student's petition.

Procedure for Student Appeals to the Provost

To appeal a decision by an academic dean (including a decision on an academic petition) the student may appeal to the Provost of the University. Within 7 days of the Dean's transmittal electronically or by mail of his/her decision to the student, the student may appeal the Dean's decision by sending a letter by certified mail or overnight courier or e-mail with a return receipt requested to the Provost, with a copy to the Dean. In this letter or e-mail of appeal, the student shall state in detail why the decision by the Dean lacks substantial evidence or was capricious or discriminatory. The student shall include the student's full name, the Eastern University student identification number, the College the student is enrolled in, and an explanation of the grievance and supporting documents.

The Provost may, at his/her discretion, limit his/her review to the written record provided, seek a meeting (in person or telephonically) with the student, and/or draw on a faculty group to review and advise. The Provost shall affirm the decision of the Dean unless the Provost determines that the Dean's decision is arbitrary and capricious or otherwise lacks substantial evidence, in which case the Provost may remand the matter to the Dean with instructions. The decision of the Provost shall be final.

GRADING SYSTEM

Following are the grades and the quality points assigned to each.

<i>Grades</i>	<i>Grade points per semester hour</i>
A+, A, A-	Excellent 4.0, 4.0, 3.7
B+, B, B-	Good 3.3, 3.0, 2.7
C+, C, C-	Fair 2.3, 2.0, 1.7
F	No Credit/Fail 0
I	Incomplete 0
P	Pass
W	Withdrawn
WF	Withdrawn Failing

GRADE PENALTY FOR ACADEMIC DISHONESTY

When academic honesty is violated, according to the definition adopted by the faculty and whatever additional definition the instructor has published to his/her students, the instructor may choose one of the following penalties according to his/her assessment of the severity of the infraction and any extenuating circumstances:

1. Assign a grade of F or "zero" on the paper, project, or examination but allow re-submission, resulting in a maximum grade of C.
2. Assign a grade of F or "zero" on the paper, project, or examination without the opportunity for re-submission.
3. Assign a grade of F in the course.

In all cases the instructor will forward, in writing, evidence of the academic dishonesty and the academic penalty to the Faculty Representative to Administration.

GPA

The total quality points divided by the total credit hours which the student has attempted yields the grade-point average. Foundation courses are not considered in calculating the grade-point average, nor are courses graded Pass.

INCOMPLETE

The grade "I" is given when a student fails to complete course requirements because of extreme and unforeseen extenuating circumstances that may have affected academic performance. The "I" must be approved by the professor teaching the course. In an effort to provide interim assessment during the incomplete period, the professor will provide a completion outline with a timeline of deliverables during the makeup period. This form must be signed by the professor and student before the end of the semester/session. The incomplete is recorded at the end of the semester/session and must be removed within 180 days. The "I" grade automatically becomes an "F" if the student does not complete course requirements and

a change of grade is not submitted within the time frame stipulated above. In the case of persistent or additional extreme and unforeseen extenuating circumstances, an extension of the incomplete or a "W" (Withdrawn) grade may be authorized. An "Exception to Policy" form, available from the Office of the Registrar Web page, www.eastern.edu/academics/registrar/index.html, should be completed and submitted to the Dean, along with documentation of the persistent or additional extreme and unforeseen extenuating circumstances. "W" grades will be awarded only for the course the student was passing at the time he/she became incapacitated. Courses carrying a grade of "W" receive no credit and are not counted as hours attempted.

Field Placements can be a special situation with extended time required to fulfill the work. Therefore, extensions for incompletes in field placement courses will be considered on a case-by-case basis.

At the time of review of academic progress and before the start of the next session (see Academic Standing section) graduate students having more than one Incomplete in a semester will have their records reviewed. This review may include contacting the professors of record who granted the Incompletes. The dean is authorized to place students with more than one Incomplete on academic probation.

GRADE CHANGE POLICY

A grade awarded other than an "I" is final. Final grades will be changed when a clerical or computational error has been determined. If the student believes there is an error, the student must report the alleged error in writing to the professor as soon as possible. If a grade change is warranted, the instructor must submit a change of grade request to the Registrar.

GRADE/ EVALUATION ACTION APPEALS POLICY

The Grade Appeals Policy applies only to questions of faculty evaluation of student performance. Since evaluation involves issues of judgment, action to revise a grade in the student's favor will not be recommended unless there is clear evidence that the original grade was based on prejudiced or capricious judgment or that it was inconsistent with official policy.

Procedure

The main concern in any grievance or appeal procedure is to bring reconciliation and growth in ways that enhance community. The first approach to any appeal should be non-adversarial and open, undertaken with careful attention to fostering understanding and problem solving. The expectation is that the majority of appeals can be resolved through a flexible process at the first or second steps outlined here. Students shall have protection against prejudiced or capricious academic evaluation through the publication of clear course objectives, grading procedures, and evaluation methods.

In accordance with Matthew 18, the process of appealing a grade or evaluative action is as follows:

Step 1: As stated above, the student should communicate with the instructor for an explanation of the grade or evaluative action. On rare occasions, a student and instructor fail to resolve the grade or evaluative action appeal through

these informal measures, and in these cases, the student may then proceed to step 2. However, the formal appeal in Step 2 must begin within four weeks of the beginning of the following semester¹.

Step 2: A student may initiate a formal appeal by completing the Grade/Evaluative Action Appeals Form (Appeals Form) and submitting it to the course instructor. The Appeals Form must be submitted within four weeks of the beginning of the semester¹ immediately following the semester¹ in which the grade/evaluative action was received. The Appeal Form must include all necessary documentation and evidence to support the grade/evaluative action appeal (Note: no additional documentation may be submitted beyond this step). The student should keep a copy of the form and attachments in the event that the student chooses to proceed to Step 3. The instructor will respond to the Appeal Form and accompanying documentation in writing within two weeks of receiving the Appeal Form².

Step 3: If the student is still not satisfied with the resolution, the student must make a written¹ request to the instructor involved to submit the Appeal Form and accompanying documentation to the departmental chairperson/program director. The instructor will then forward the Appeal Form and all accompanying documentation to the chairperson/program director of the program. **This written request must be forwarded to the chairperson/program director within one (1) week following the due date of instructor's decision.** The departmental chairperson/program director will submit a written response to the student within two (2) weeks following the student's written request for an appeal. A copy of the response will be provided to the student, instructor and program Dean.³

Step 4: If, after receiving a reply from the departmental chairperson/program director, the student is still not satisfied with the resolution, the student must make a written request to the departmental chairperson/program director to submit the Appeal Form and accompanying documentation to the program dean. The written request must occur within one (1) week of receiving the departmental chairperson's/program director's decision. Upon receipt of the written request from the student, the departmental chairperson/program director will inform the program dean that the Appeal Form and accompanying documentation will be forwarded. The student's written request will be attached as a cover page and then forwarded with the Appeal Form and all accompanying documentation to the program dean. The program dean will submit a written response to the student within two (2) weeks following the student's written request for an appeal. A copy of the response will be provided to the student, instructor and program chairperson/program director.

Step 5: If, after receiving a reply from the program Dean, the student is still not satisfied with the resolution, the student must make a written¹ request to the program Dean to submit the Appeal Form and accompanying documentation to the Academic Appeals Committee. This written request must occur within one (1) week of receiving

the Dean's decision. The Dean will then forward the Appeal Form and all accompanying documentation to the Academic Appeals Committee. The student's written request will be reviewed at the next scheduled Academic Appeals Committee meeting. The Academic Appeals Committee will hear a presentation by the student of his/her case and will consider the recommendations from Steps 2, 3 and 4. The Academic Appeals Committee will then decide the merits of the case. The decision of the Academic Appeals Committee will be final.

- ¹ May be satisfied by use of the eastern.edu email account and becomes a part of the appeals documentation.
- ² If the faculty member involved in the appeal is the departmental chair/program director, the student should go immediately to Step 4.
- ³ If the faculty member involved in the appeal is the program Dean, the student should go immediately to Step 5.
- ⁴ Semester refers to the period of time in which the course is instructed and evaluated.

Go to www.eastern.edu/academic/registrar to download the Grade/Evaluative Action Appeals Form.

FINAL GRADE REPORTS

At the end of each semester or other session, students may access their academic records on www.eastern.edu, E-net Student Services or myeastern.edu.

SATISFACTORY ACADEMIC PROGRESS

Graduate students must achieve a minimum 3.0 cumulative GPA once 12 credits are earned. 2.75 GPA is acceptable for less than 12 credits. Specific programs may enforce additional policies based on external accreditation and professional standards for satisfactory academic progress.

ACADEMIC PROBATION

Students who fail to achieve the required grade-point average for their level of credits will be placed on Academic Probation. The Registrar will record the probation at the end of the semester/session and students will have 180 days in which to return to good academic standing. Students with two or more incomplete grades may be placed on probation when normal progress toward graduation is in jeopardy.

The student's academic program handbook may announce more stringent standards for satisfactory academic progress, especially as they apply to program accreditation. Graduate students in Counseling Psychology and Education programs who are placed on Academic Probation will be limited to two courses of any kind (graduate or undergraduate), or a maximum of 6 credit hours, until they return to good academic standing.

DISMISSAL

Students may be dismissed from Eastern for failure to maintain the required cumulative grade-point averages, for ethical misconduct, or for failure to complete graduate degree requirements within the allowed period of seven years. There is no provision for re-admission following dismissal for ethical or academic reasons once the appeal process has been exhausted.

The Dean makes dismissal decisions when it is highly unlikely for the student, under present circumstances, to complete the requirements for graduation. The Dean will consider more stringent standards for satisfactory academic progress announced in the handbook of a student's academic program, especially as they apply to program accreditation.

Students receiving one or more failing grades in a session or semester will have their cases reviewed. The dean has the option to require immediate withdrawal regardless of prior academic performance when there is little or no likelihood of success following two or more failing grades.

Also, a violation of integrity and honesty is a serious offense, considered sufficient basis to terminate enrollment.

APPEAL OF DISMISSAL

A student may appeal a dismissal decision to the CCGPS Academic Appeals Subcommittee (convened for such appeals, as needed) by submitting an Academic Dismissal Appeal letter. This letter should: 1) explain and document perceived irregularities in the application of the academic dismissal policies and procedures, which had the effect of rendering the dismissal decision arbitrary or capricious, 2) present new information which was not available at the time of the dismissal, and/or 3) explain extreme and unforeseen extenuating circumstances that may have affected academic performance. In the letter, the student should propose plans to address previous difficulties to ensure future success. All supporting documentation should be included or attached to the letter.

Appeal letters must be received within two weeks of receipt of notification of dismissal. Letters should be sent to the University Registrar, who will forward them to the chairperson of the Academic Appeals Subcommittee. The decision of the Subcommittee following the appeal will be final.

GRADUATION

Students must provide written notification to the Registrar's Office of their intention to graduate at least six months in advance of the anticipated graduation date. A form is available on the Registrar's Web page www.eastern.edu/academic/registrar. In order to graduate, a student must fulfill all requirements for the intended degree, including total semester credits; residency requirement; core curriculum; major curriculum; total grade-point average of 3.0 for graduate degrees; and any test/field experience required by the academic department. (Consult your academic advisor for specific requirements of the intended degree.)

Degrees are awarded to qualified graduates on January 31, March 31, May 31, August 31, October 31 and December 31 each year. Diplomas are normally distributed by U.S. mail within 60 days following the degree date except when graduates have unpaid bills or other obligations.

Commencement ceremonies are held each May and December to recognize students who completed degree requirements in the six month period since the last ceremony. Participation in the designated Commencement ceremony is voluntary although the cost of participation is factored into student charges.

Students whose Degree Award or Candidacy date is

January 31, March 31 and May 31 participate in the May Commencement Ceremony (date announced in the annual calendar). Students with Degree Award or Candidacy dates of August 31, October 31 and December 31 participate in the December Commencement ceremony (date announced in the annual calendar).

Participation in the ceremony celebrating the student's graduation is encouraged, but optional. A student may not elect to participate in a ceremony for which he/she is not eligible.

STUDENT SERVICES

ACADEMIC ADVISING

Each student is assigned an academic advisor by one's department or school. Depending on the nature of the program, the advisor may be able to assist the student with the following functions: changes of status, requests for Incompletes, petitions for exceptions to policy, grade appeals, graduation clearances, academic plans or programs of study, professional and career advising, and other matters that will contribute to the student's successful and timely completion of his or her chosen program.

STUDENT RESPONSIBILITY

It is the student's responsibility to be knowledgeable about academic policies, curricula and services of the University, as stated in this publication and posted to www.eastern.edu, particularly with regard to degree requirements. A student experiencing personal and/or academic difficulties should contact her/his program advisor at the earliest possible time to ensure appropriate interventions and remedies.

CAREER SERVICES

Services include résumé critique, mock interviews, networking tips, and job search strategies. Helpful online resources, such as articles on job market trends and current salaries, as well as a list of career fairs. Contact the Office of Talent and Career Development for more information.

CHAPLAINCY SERVICES

Opportunities for corporate worship, prayer, and counseling are facilitated by the University Chaplain, Dr. Joseph B. Modica (jmodica@eastern.edu/610.341.5826).

DATA AND IDENTITY SECURITY

Eastern has taken a layered approach to IT security. Physical access to enterprise systems is very limited and strictly controlled. Electronic access to those systems and data is dependent upon who the user are and their specific relationship to the University, and what they need to know in order to function in that relationship. The IT infrastructure limits the kind of communication that can reach the systems and from where, both internally and externally. In addition

to the University firewall, an intrusion detection system adds another layer of security. Other layers of security are being constantly evaluated.

Identity theft is more likely to happen in ways that are controllable by individual technology users. You can help to protect your own information by following these guidelines:

- Don't answer any e-mail that asks for personal information.
- Make online purchases only at established, reputable sites.
- Don't leave logins, passwords PINS and personal information easily accessible to others.
- If you store passwords and financial information on your portable devices, be careful where they are kept and be sure to protect your files.
- Shred personally identifiable records.

E-MAIL SERVICES

Eastern University issues a unique user name (login), password, and e-mail account to each enrolled student. The Eastern University e-mail account is the primary method of communicating with students about community events, important announcements, and last-minute changes such as class cancellations. Therefore, it is very important to check the Webmail account regularly and/or follow the online instructions to redirect Webmail to a primary e-mail account. For detailed instructions on Web mail, please go to www.eastern.edu and find Helpdesk – E-mail Support using the Search command.

EMERGENCY AND CRISIS INFORMATION

It is advisable to create an account for the EU Emergency Messaging System. Go to www.eastern.edu and find Safety and Security using the Search command. In the case of an emergency event, we ask that all community members use their best judgment. We also recommend that each member of this community become familiar with emergency procedures. Call Security at 610.341.1737 for emergencies on the St. Davids campus or building security at other sites.

1. Carry identification, including an emergency contact card, with you at all times.
2. Keep a flashlight, a battery-powered radio and extra prescription medication on hand.
3. If you wear contact lenses, carry glasses with you at all times.
4. Set up a contact plan. Ask someone who lives outside of your area to be your family's contact, and include that phone number on your emergency contact card.
5. If the building you are in is affected, go to another place of safety.
6. As you use your E-Card/key to access buildings, do not allow people unknown to you to enter.

FACULTY/ COURSE EVALUATIONS

Students evaluate instructors and curriculum regularly using an electronic evaluation system. Students receive notifications via their [eastern.edu](http://www.eastern.edu) e-mail addresses informing them that course evaluations are available for completion. Instructions to access the evaluations are provided in the notifications.

ID CARDS (E-CARDS)

Students must have their ID cards in order to use the library, to obtain borrowing privileges at area libraries, and to participate in activities on the St. Davids campus. Students may also be asked to identify themselves to Security or other University personnel.

INCLEMENT WEATHER AND SCHOOL CLOSING PROCEDURES

As adult students, you will have to use your own judgment regarding travel conditions from your area. If you determine that it is unsafe to travel and the class has not been cancelled, CCGPS attendance policy will apply.

If the University is closed or classes are delayed due to inclement weather (snow, ice, extreme weather conditions), there are two convenient ways for you to stay informed:

The CCGPS Information Bulletin Board

The CCGPS Information Bulletin Board (found on our phone system*) will be updated with information concerning those classes affected.

The standard message indicates that there are no messages at this time. For those making long distance phone calls, please feel free to dial 1.800.732.7669; at the menu, dial 2834.*

Radio

The University will make reasonable efforts to offer opportunities for future enrollment without penalty.

Convenient Communication – Military personnel admitted to graduate programs are welcome to use their private e-mail accounts to correspond with university representatives until the first class meeting. All announcements relevant to the upcoming enrollment will be sent to the e-mail account the prospective student specifies in the application for admission. Military personnel may need more time to provide documents related to enrollment and financial aid processes, but all materials must be received before the first class meeting.
