EASTERN UNIVERSITY

**PLEASE**

*Say "YES" to Green Energy!*

**Green Energy Facts:**

Eastern University was the first college in PA to power a campus on 100% wind energy -- EU now uses only wind and solar energy for all of our electric power needs at St. Davids -- Each wind turbine produces enough electricity to power 500 average homes per year -- Wind and solar farms create jobs and revenue for rural communities -- Eastern's Green Energy program prevents the release of 2,030 metric tons of carbon dioxide and other greenhouse gases into the atmosphere, the equivalent of taking 375 cars off the road, or planting 1,800 acres of trees

**Please accept the "Green Energy Fee" on your tuition bill to support green initiatives on campus.**

Help EU do its part to care for creation.

**Please do not opt out of the Green Energy Program. Thank you.**
